SOBAJA

Sauvignon Friuli D.O.C.

Our Sobaja Sauvignon comes from a unique winegrowing area in Friuli, protected by the Carnic Alps and the Adriatic Sea. Until the start of fermentation, the grapes (harvested in the smallest hours of the night) are protected from oxidation at all stages by accurate temperature control. Fermentation at a controlled temperature and the lengthy period on the lees allow for the enhancement of the specific characteristics of the varieties and the terroir.
